

BharatBid

PS 26100 vs BharatBid — after intelligence layer

Same 26 items as the morning comparison. DEMO adapters count as in-website. Live government APIs remain listed as left. 31 Aug 2026.

Now: 24 in website · 2 partial (live portals; DigiLocker marker) · 0 leftover product items · 0 live government APIs

Morning: 7 in website · 8 partial · 11 left. Officer remains the decision-maker. Not an official government score.

PS requirement	Status	What is in the website now	What is still left
1. Integrate with government portals/databases	Partial	12 DEMO adapters: GST, MCA, Udyam, GeM, PAN, Income Tax, EPFO, ESIC, DPIIT, NSIC, debarment, BIS. All labeled DEMO / SYNTHETIC.	Live GSTN, MCA21, Udyam, GeM, PAN/NSDL, IT, EPFO, ESIC, NSIC, DPIIT, BIS, DigiLocker. No production portal connectivity.
2. Udyam / MSME status and statutory registrations	In website	DEMO Udyam lookup, Udyam certificate documents, MSME as a tender requirement, GST <-> Udyam cross-check.	Live Udyam portal.
3. GST registration	In website	DEMO GST registry (GSTIN, legal name, status, return-filing attributes). GST certificate upload, extraction, and verification panel.	Live GSTN registration API.
3b. GST return filing status	In website	GST Return Filing on the DEMO GST snapshot (FILED / NOT_FILED / DELAYED / NOT_AVAILABLE + period). Not a second verification system.	Live GSTN return-filing download. Never claimed as GSTN.
4. PAN verification	In website	DEMO PAN Registry adapter. PAN document + requirement. PAN masked in lists (ABCDE****F).	Live NSDL / Income Tax PAN API.
4b. Income Tax compliance	In website	DEMO Income Tax Registry (assessment year, ITR type, filing status) looked up by PAN.	Live Income Tax e-filing API.
5. Make in India / local content	In website	CLASS_I / CLASS_II / NOT_DECLARED and optional local-content % from the declaration. Not an automatic eligibility decision.	Live Make in India portal confirmation. Automatic Class I/II eligibility.
6. EPFO compliance	In website	DEMO EPFO adapter, epfo_certificate document type, tender requirement, seeded Bayfront check.	Live EPFO portal. Official EPFO number formats (demo codes only).
6b. ESIC compliance	In website	DEMO ESIC adapter, esic_certificate document type, tender requirement, seeded Bayfront check.	Live ESIC portal.
7. Startup India	In website	DEMO DPIIT Registry + dpiit_certificate. Optional Startup India requirement on tenders.	Live Startup India / DPIIT API.
7b. NSIC	In website	DEMO NSIC adapter, nsic_certificate, tender requirement, seeded Bayfront check.	Live NSIC API.
7c. OEM authorization	In website	Structured OEM fields compared to the bid claim: MATCHED / MISMATCHED / NOT_COMPARABLE / EVIDENCE_MISSING / REVIEW_REQUIRED.	Live OEM or brand portal. Automatic disqualification.
8. DigiLocker verification	Partial	DEMO authenticity marker in extracted text (ISSUED / NOT_ISSUED / NOT_AVAILABLE). Copy: not connected to DigiLocker.	Real DigiLocker fetch of government-issued documents.
8b. Document extraction, mapping, and inspection	In website	Upload, versioning, requirement mapping, text extraction, preview/download, documents tab on each bid.	Live authentic-document proof (DigiLocker). Stronger AI extraction on real PDFs.
9. Blacklisting / debarment	In website	DEMO Debarment Registry. RECORD_FOUND requires officer review. Never auto-rejects. Raises Procurement Review Risk.	Live GeM / CPSE debarment feed.
10. Other statutory and tender-specific requirements	In website	Requirement types + Requirements tab. BIS licence adapter and document type when the tender names BIS.	Live BIS and other named statutory APIs.
MCA21 (named in PS description)	In website	DEMO MCA registry (CIN). GST <-> MCA and MCA <-> Udyam cross-checks.	Live MCA21 API.
GeM (named in Key Capabilities)	In website	DEMO GeM seller records (active Bayfront, inactive Delta). Lookups can now match. Still DEMO SOURCE.	Live GeM seller / debarment API.
BIS / DPIIT (named in PS description)	In website	DEMO BIS licence adapter and DEMO DPIIT recognition adapter on the existing verification path.	Live BIS and DPIIT APIs.

BharatBid

PS 26100 vs BharatBid — after intelligence layer

Same 26 items as the morning comparison. DEMO adapters count as in-website. Live government APIs remain listed as left. 31 Aug 2026.

Now: 24 in website · 2 partial (live portals; DigiLocker marker) · 0 leftover product items · 0 live government APIs

Morning: 7 in website · 8 partial · 11 left. Officer remains the decision-maker. Not an official government score.

PS requirement	Status	What is in the website now	What is still left
11. AI: missing, inconsistent, or non-compliant information	In website	Deterministic gaps: missing mandatory documents, conflicting legal names, OEM mismatches, missing validity dates, undeclared Make in India class. Plus GST/MCA/Udyam cross-checks.	An LLM that reads live portal payloads. Product does not invent missing fields.
12. Overall Compliance Score	In website	Overall Compliance Score — Decision Support on Bid Detail, Intelligence, Command Center, and evaluation PDF. Complements Officer Review Priority; does not replace it.	An official government compliance determination. A score backed by live portal data.
12b. Risk Level / bidder risk classification	In website	Procurement Review Risk: LOW / MODERATE / HIGH / CRITICAL from Officer Review Priority bands. DEMO debarment RECORD_FOUND raises LOW/MODERATE to HIGH. Not a fraud score.	A certified fraud or government risk rating.
13. AI-generated recommendation to the officer	In website	Officer advisory on Command Center, Bid Overview, Intelligence tab, and PDF. Deterministic. Never approve / reject / winner / fraudulent bidder.	A recommendation grounded in live government facts.
14. Auditable record of verification and checks	In website	Audit events, bid Activity timeline, verification snapshots, officer decisions, PDF evaluation report with coverage / risk / advisory.	Nothing material for the SIH demo.
Key: Compliance Dashboard (score, risk, docs, pending, AI recs)	In website	Existing Command Center now includes intelligence: coverage average, review-risk counts, pending requirements, officer advisory. No second dashboard.	Dashboard numbers from live government systems.
Key: Officer remains final qualification decision	In website	Evaluation workspace: officer records the decision. No automatic award, rejection, ranking, or disqualification.	None. This still matches the PS.

Government APIs NOT integrated: GSTN, MCA21, Udyam, GeM, PAN/NSDL, Income Tax, EPFO, ESIC, NSIC, DigiLocker, BIS, DPIIT, debarment feeds.
